California OES Weekly Weather Threat Briefing

September 20, 2017
1:30 PM PST

Day 1: No major hazards expected.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

Prepared by: Leslie Waite
801-524-7907

Key Points

September 21 – 28, 2017

Thursday-Friday

- Cool, wet, windy and unsettled with snow across the higher elevations. Winter driving conditions expected. Snow level down to 6000 feet. Temperatures will run 10-20 degrees below average for this time of year.

Saturday-Wednesday

- Drier and warmer with no significant weather or water hazards at this time. HOWEVER, with the drier weather and drying fuels late in the forecast period, hazardous fire weather conditions may return.
